Date

7. According to the 2003 Uniform Statewide Building Code, section 110.3, if you are replacing or repairing roofing, floor covering, or siding on a structure, except a single family dwelling or residential housing with 4 or less units, you must submit a certification that an asbestos inspection was completed by a license asbestos inspector license to perform such inspection pursuant to section 54.1-503 of the Code of Virginia that no asbestos containing material were found or that appropriate response actions will be under taken in accordance with the requirements of the Clean Air Act National Emission Standard for the Hazardous Air Pollutant (NESHAPS) (40 LFT Part 61 subpart M) or you may sign the following statement:

The material to be repaired or replaced are assumed to contain asbestos and that the asbestos installation, removal, or encapsulation will be accomplished by a licensed asbestos contractor or a licensed asbestos roofing, flooring, or siding contractor.
